Polar Exploration Books

We hope you enjoy reading our latest catalogue and find items of interest for your collection. I start this time with some newly published books, including my own small book about Devon’s connections with the Heroic Age, called ‘From South Devon to the South Pole’. This is something I have been quietly researching for about five years and have been spurred by the Scott Centenary to finally get it into print. Quite a relief I can tell you! If the book you are looking for is not in this catalogue, then please email or ring as we do not list here all the books in stock. A majority of the books here have not been listed before. Some of the books listed in my last (‘Hussey’) catalogue are still available. Do have another look. Please let us know if you would like more details about the content or condition of any of the books. Images can be emailed if required.

* Many books sell very quickly therefore it is best to ring and reserve them first, so as not to be disappointed.

* Because of the costs involved, we regret that if you do not place an order after receiving three issues of our catalogue we will no longer be able to send it to you.

Included with this catalogue is a publicity flyer for a Conference in Plymouth in June 2011, which I am involved in organising. It is part of the National Scott 100 commemorations to be hosted by the University of Plymouth. This weekend has been chosen as Scott’s birthday is on 6 June. Do register, via the website or by phone, if you would like to take part in the weekend’s events in Captain Scott’s home city. It should be a good gathering of enthusiasts from around the world.

...and who was Irving?

For those who are wondering about the name chosen for this catalogue, John Irving was Third Lieutenant on the *Terror* with Crozier and his grave was discovered by McClintock in 1859 on King William Island. He was later re-buried in Edinburgh.

*Best wishes for a Happy, Healthy and Prosperous New Year to all our customers*
The aim of the book is to show the connections Plymouth, Torquay and South Devon have with the Heroic Age of Antarctic Exploration. Several men who sailed south with Captain Scott and Sir Ernest Shackleton were recruited from this area and there are a number of landmarks and memorials located here. Many of the men and memorials have not been written about before and most of the landmarks can still be visited and explored today. This softback book has 84 pages and is very well illustrated. It includes a foreword from Sir Ranulph Fiennes and an introduction, written by the Vice-Chancellor of the University of Plymouth.
